McGREGOR'S PEONIES

THE BEST AND MOST POPULAR VARIETIES OF "THE MOST BEAUTIFUL FLOWER THAT GROWS"

Peonies should be planted in the early fall. While they can be and are planted at all times through the fall and spring months, there is no question but that the fall is the best time for setting out the roots. If planted out during the months of September and October, or even November, the result will be good blooming plants the following June. After they are once planted, they require little attention and care, thriving almost anywhere, and are absolutely hardy everywhere, requiring no protection whatever, even in the most severe climate. They do best in good, rich soil and open sunny position, but this is not absolutely necessary. They like a liberal supply of water during the growing season. The abundance and wealth of the gorgeous flowers which they produce are sufficient to satisfy the most enthusiastic. They are not troubled with insect pests or diseases of any kind, and, once planted, they take care of themselves, increasing in beauty each year.

We recommend that you order Peonies sent by Express, as much larger roots can be sent in that way.

The Old-Fashioned Peonies of Our Grandmothers' Gardens

These three varieties represent the best in free, early flowering and reliable kinds.

OFFICINALIS ROSEA—Deep cerise pink; very striking. Price, 25 cents each.

OFFICINALIS ALBA—Pure white; large and full flower. Very popular for cemetery planting. Price, 25 cents each.

OFFICINALIS RUBRA—Deep crimson; excellent for early cut flowers. Very effective. Price, 25 cents each.

The above three Peonies in strong plants (if planted by November, will flower next spring) for 60 cents, postpaid.

POPULAR PEONIES

Price of Popular Collection of Peonies, 25 cents each, any five for \$1.00.

ACHILLES—Fine, large five-inch bloom, very floriferous; opens light flesh colored pink, finishing bluish-white, with an occasional creamy spot; somewhat resembling an immense carnation.

ANDRE LAURIES—Rosey-red; very free late bloomer.

DUCHESS DE NEMOURS—Superb cup-shaped sulphur-white flowers, fading to pure white.

EDULIS SUPERBA—Beautiful brilliant pink, with silver reflex; large, well-formed full flower on strong stem.

MADAME BOLLET—Large, very double flowers; clear rose, with white reflex, lined with carmine; late bloomer.

QUEEN VICTORIA—Large, full, compact bloom; open flesh-white, changing to pure white; center petals tipped with carmine spots.

SUPERIOR PEONIES

Price of Superior Collection of Peonies, 35 cents each, any five for \$1.50.

AGNES MARY KELWAY—Guard petals light rose, with yellow petaloids bearing a lovely rose tuft. A tricolored bloom.

CANARI—Guards delicate blush, center of flower golden-yellow.

EXCELSIOR—Brilliant crimson, shading to lighter at the tips of the petals. Very large and full, and finely fringed.

FESTIVA MAXIMA—This is not only the finest white in existence, but in most quarters it is regarded as the queen of all the Peonies. An authority says: "This flower has reached the ultimate beyond which we cannot go." It combines enormous size with wondrous beauty.

LADY LEONORA BRAMWELL—Late midseason; compact, vigorous habit, color delicate silvery-pink, shaded with lilac and chamois; the most fragrant of Peonies.

MARIE STUART—Large bloom, coming in clusters; outer petals soft pink, center pink and sulphur-white.

FANCY PEONIES

Price of Fancy Collection of Peonies 50 cents each, any five for \$2.25.

FELIX CROUSSE—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color—that is, a full, rich, even shade of red without being suffused with a shade of another color.

FLORAL TREASURE—Very large and full; clear pink, shading to lighter at center; a splendid hemisphere of fragrance; long, strong stems to hold the bloom, sometimes six inches across.

GOLDEN HARVEST—Very striking variety, producing large tricolored blooms, the guard petals being blush-pink, with a distinct blush-white color, and deepening to canary-yellow, a few of the center petals tipped and striped with light crimson. This Peony combines cream, gold, white, pink, salmon, peach and apricot, the total color effect of the flower creamy-pink.

JENNY LIND—Midseason; large bloom on long stem; strong grower, free bloomer; color, bright pink; silvery reflex, with narrow white petals, interspersed with center petalage.

PRESIDENT ROOSEVELT—The color is one of the most distinct of the Chinesis type, a brilliant scarlet, bright and rich.

MADAM CALOT—This is the freest flowering of all Peonies. It is known in Holland as Glory of Boskoop. Flesh-white shaded salmon; large, convex flower, fine buds.

MONT BLANC—The yellow Peony. Broad, snow-white guard petals, center forming a very full, high cushion; color sulphur-yellow, fading in time to pure white; has more yellow in it than any Peony we grow.

MARIE LEMOINE—Enormous, sulphur-white, massive bloom, delicately shaded chamois, with narrow carmine edge.

Mlle. ROUSSEAU—Sulphur white, with delicate blush center.

ACME PEONIES

Price of Acme Collection of Peonies 75 cents each, any five for \$3.50.

CROWN OF GOLD—(Couronne d'Or) Immense, very full, ball-shaped bloom; pure snow-white, with golden-yellow reflex. Carmine edges on some center petals.

EUGENE VERDIER—This is one of the most exquisitely chaste and refined Peonies of the whole family. It combines every desirable feature. Immense size; globular shaped, and literally packed with petals; color blush, delicately shaded to pink toward the center, profuse bloom, deliciously fragrant.

GIGANTEA—This is one of the rarest and most sought after in cultivation. It is one of the earliest to bloom, produces a flower six to seven inches diameter.

LA TULIPE—Enormous globular, fragrant flowers; delicate rose, shading to ivory-white, center petals tipped carmine.

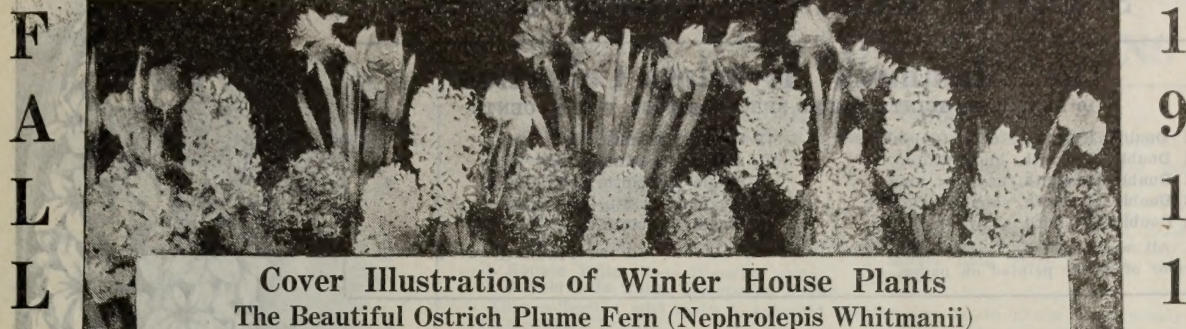

LADY DERBY—Immense size, very double, pure white, with guard petals delicately tinted rose when they first open.

MASTERPIECE—Large bloom of admirable shape and perfect regularity; color fine glossy cerise, of remarkable delicacy and freshness.

MEISSONIER—Deep, dark, rich red. In the cut-flower market it is known as the American Beauty Peony.

MONSIEUR JULES ELIE—Immense globular and very full flower, broad and overlapping petalage, forming one of the most perfect Peonies in existence; finest glossy flesh-pink, shading to deeper rose at base. We had blooms the past spring twelve inches across.

The Beautiful Ostrich Plume Fern (Nephrolepis Whitmanii)

The Nephrolepis family of Ferns of which the well-known Boston is a member has furnished us so many beautiful species of late years and are succeeding so well that this family has become the most popular of all. The best variety is the Ostrich Plume Fern, Nephrolepis Whitmanii. The graceful pluminess and charm of this new Nephrolepis its character features of shape, size and growth, give it distinction and superior commercial value. The Whitmanii is of dwarf growth and wide, up-right, stocky shape. The fine-cut fluffy fronds stand erect and have proved little liable to revert to the original Boston type. The pinnae sub-div-

ing make miniature fronds which are super-imposed on the main fronds looking as if two or even three were contained in one. They are graceful beyond description, feathery, plummy; nothing describes them better than Ostrich Plumes. We offer well established plants from 2 inch pots, 15 cents each, postpaid; from 3 inch pots, 25 cents each, postpaid; from 3 1/2 inch pots, 35 cents each, postpaid, strong plants from 4 inch pots, 50 cents by express; from 5 inch pots, specimen plants, 75c by express; specimen plants from 6 inch pots, \$1.00 each, by express.

Ostrich Plume Fern---Nephrolepis Whitmanii

THE NEW FERN "ROOSEVELT"

In general characteristics it resembles the Boston Fern, but with two points of great excellence over that variety. First, it produces many more fronds, making it bushier and handsomer plant; then the pinnae are undulated giving it a pronounced wavy effect seen in no other Fern. It is highly recommended. Fine young plants 60 cents each, postpaid, 3 for \$1.65; strong plants from 4 inch pots, \$1.00 each, by express only.

THE PLUMED SCOTTI FERN

(Nephrolepis Scholzei)

The ideal plumed Fern, holding the same position to all other plumed varieties that Scotti holds to the old Boston. It is a sport from Scotti possessing all the merits of that most popular variety, but with the pinnae sub-divided, giving it an airy feathery appearance. Price, nicely shaped plants, 25 cents each, postpaid; larger plants 50 cents; specimen plants, 75 cents.

The Grand Spiral Leaved Begonia Countess Louise Erdody

Probably the most popular Begonia of the Rex family is the Spiral Leaved variety, Countess Louise Erdody, a strikingly peculiar variety of the Rex type; the leaves having a bright metallic lustre. The foliage appears dark silver in the center, shading to coppery rose near the margin with yellowish green veins on both sides, the spiral twisting of the leaves giving

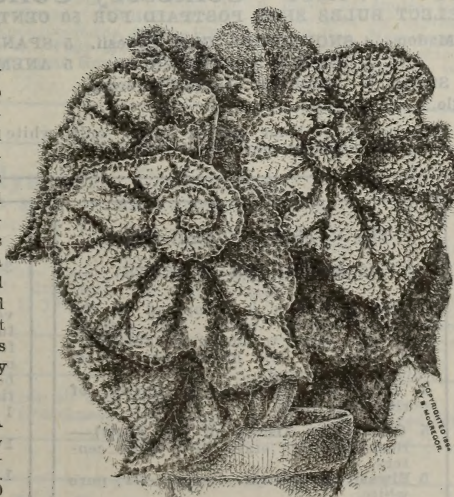

it a very curious appearance. This variety is of particularly easy growth. The soil should be a mixture of loam, wood's earth and sharp sand. We offer well established plants in two sizes, price for 2 1/2 inch pots, 20 cents each, postpaid; strong plants from 4 inch pots, price 40 cents (by express); the larger plants if postpaid, 55 cents.

NEW EVERBLOOMING BEGONIA, GRACILIS PRIMA DONNA

This splendid new variety is of very sturdy and even habit, growing about 10 inches high and forming a freely branching bush 10 to 12 inches across; a ball of flowers. Its characteristic feature consists of its uncommonly large flowers which measure from one inch to one and one-fourth inches and are of a beautiful rose color shading to carmine towards the center. The Begonia Gracilis Prima Donna may be described as a perfected ideal form of the Gracilis family, and makes a superb plant for bedding or pot culture. Price, strong plants, 15 cents each; larger plants, 30 cents each (by express).

BEGONIA GRACILIS GIGANTIA ALBA

Makes a charming plant, completely covered with creamy-white flowers. Brilliant green foliage; strong growing habit. Price, 15 cents each; larger plants, 30 cents each (by express).

Spiral Leaved Begonia Countess Louise Erdody

BEGONIA, GRACILIS RUBY

A new Begonia of great merit. Flowers a beautiful deep carmine; foliage coppery brown. Very attractive; strong growing. Price, 15 cents each; larger plants, 30 cents each (by express).

BEGONIA, GRACILIS MULTIFLORA ROSEA

A very fine new variety. Flowers of rosy-carmine, free bloomer with copper tinted foliage; combines compactness of habit with brilliancy of color. Price, strong plants, 15 cents each; larger plants 30 cents each (by express).

15 LARGE BULBS SENT POSTPAID FOR 50 CENTS

After careful testing, consultation with our Holland bulb growers, and painstaking study, we have succeeded in forming a collection of winter-flowering bulbs, which can easily be brought into bloom at Christmas time by any amateur. This collection will give you a window garden full of brilliant, fragrant and delicate flowers for several weeks. Buy the bulbs early in the fall, and plant them at once in pots or boxes. Water them abundantly immediately after planting, cover the tops of the pots with leaves or excelsior, and place in a dark closet or cellar for five weeks, until the roots are well grown. Bring them out to a sunny window three or four weeks before the blooms are desired, as the tops will grow strong and rapidly after the roots are well grown.

Grape Hyacinth

SELECT NAMED SINGLE HYACINTHS

PRICE, YOUR SELECTION, 10 CENTS EACH

Single Hyacinths are much to be preferred to double ones. In double Hyacinths whereas the single florets are doubled, they are much farther apart on the stem, and therefore do not form nearly so handsome a truss as the single varieties where the trusses are much longer and fuller. We strongly advise the single instead of the double for both bedding and pot culture.

EARLY TULIPS

Tulips are the most satisfactory spring-flowering bulbs. They are extremely hardy and of easy culture, blooming as freely and producing as fine flowers in a confined town garden as in a more favorable place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. One of the prettiest ways to plant them is in the sod next the foundation of the house, where they will come up and bloom year after year with no care.

HARDY GARDEN LILIES

Special Notice

Many of the finest Lily bulbs come from Japan, and are not received in this country until November. They cannot be obtained earlier, as the bulbs are not shipped until fully matured. Where bulbs are offered for sale earlier than the latter part of November, they are bulbs which have been kept in cold storage, and thereby have lost much of their vitality, and will not grow as well as fresh bulbs. Therefore, we advise the preparation of the Lily beds or borders early in autumn, covering them with four to six inches of leaves or litter of any kind. This will keep them open, and admit of the planting of the bulbs even if not received until December.

BEAUTIFUL DECORATIVE FERNS

These beautiful plants for home decoration vie with the Rubber plants for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Fronds have a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.

New Plumed Fern

(Elegantissima, or Tarrytown)

This is a sport from the Pierson Fern; the plant is of much more compact habit, one-half as tall, but with the fronds nearly twice as wide, making it a much more desirable plant for all purposes. Prices, nice young plants, 15c. each; larger plants, 25 and 50 cents each.

The Plumed Scotti Fern

(Nephrolepis Scholzei)

The ideal plumed Fern, holding the same position to all other plumed varieties that Scotti holds to the old Boston. It is a sport from Scotti possessing all the merits of that most popular variety, but with the pinnae sub-divided, giving it an airy feathery appearance. Price, nice plants 20 cents each; larger plants 50 cents each.

The Piersonii Fern

The New Crested Fern

(Nephrolepis Superbissima)

The latest improvement in this family of Ferns, unique in foliage, quite different from all other varieties of this family, standing in a class by itself. It makes a dwarf, compact growth similar to the Scotti Fern, the fronds, however, being more dense, firm and rigid, and the foliage several shades darker than any Fern coming from the Boston type. Price, nice young plants, 25 cents each; strong plants in 4-inch pots, well established, 50 cents each.

The Newport Parlor Fern

(Nephrolepis Scottii)

It is a condensed form of the Boston Fern, with characteristics not evident in the parent, an average plant in an eight-inch pot having 200 fronds. The fronds average about twenty inches in length and three inches in the widest point, being more finished than the parent. Price, nice young plants, 15 cents each; larger size, 25 and 50 cents.

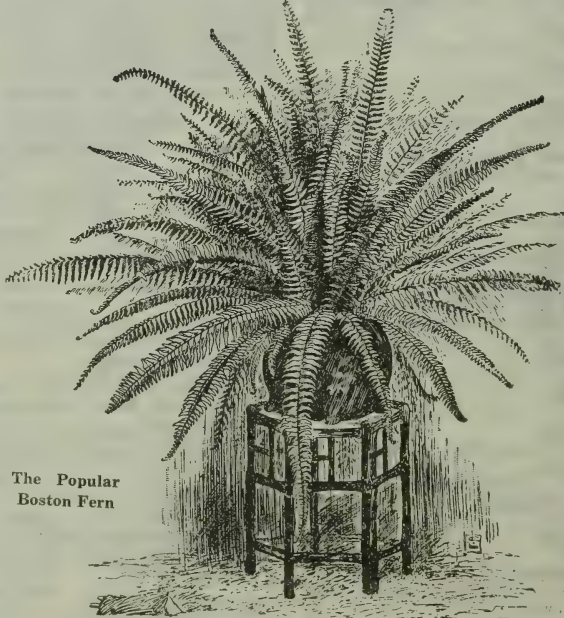

The Roosevelt Fern

The Grandest and Greatest of all Ferns---Roosevelt

There is absolutely no fern to compare with this charming new variety. For full description see first page of this book. It is a wonder. Young plants, 60 cents each, postpaid; three for \$1.65; strong plants from 4-inch pots \$1.00 each, by express only.

The Springfield Fern

A valuable Fern, especially for vases, baskets and box work of very erect growth, the fronds more stiff than the Boston, and similar to the Piersonii Fern. It is a vigorous growing variety. Price, nice young plants, 15 cents each; strong plants, 35 cents.

The Popular Boston Fern

Ostrich Plume Fern

(Nephrolepis Whitmanii)

The best of the Crested Ferns and a great favorite. Delights in hot weather and is perfectly at home here in the summer. Whitmanii is of dwarfer growth, but equalizes matters by compactness and a wide, stockier shape. Price, nice young plants, 15 cents each; larger plants, 25 and 50 cents each, postpaid.

Nephrolepis Piersonii

An entirely new form of Boston Fern. The pinnae subdividing making miniature fronds which are superimposed on the main fronds, looking as if two, or even three, were condensed in one. They are graceful, feathery, plummy. Price, nice young plants, 15 cents each; larger plants, 25 and 50 cents.

Newport Parlor Fern

The Boston Fern

(Nephrolepis Exaltata Bostoniensis)

This popular Fern has proved one of the best decorative plants of recent introduction. The fronds are much larger than the Sword Fern, and do not stand so stiff, but droop gracefully. Excellent for making large specimen plants, also for hanging baskets. Price, nice young plants, 10 cents each; larger plants, 25 and 50 cents each.

The Fish Tail Fern

(Nephrolepis Davallioides Furcans)

This is a grand Fern, entirely distinct from any of the other varieties of Nephrolepis. Throughout the South and especially at New Orleans this Fern takes precedence over all others. The ends of each pinnae are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant of any of the Nephrolepis. Grand for house culture. Fine strong plants, 50 cents.

MAJESTIC ORNAMENTAL PALMS

CYCAS REVOLUTA (Sago Palm)

THE CYCAS is one of the most valuable plants grown for the decoration of the lawn or house. Their heavy glossy, deep green fronds resist alike the gas, dust and

cold to which decorative plants are frequently exposed. Price, nice, small shapely plants, 50 and 75c each; 6 to 8 leaves, \$1.00 each; 8 to 10 leaves, \$1.50; 10 to 12 leaves, \$2. Bulbs increase in size each year and leaves double in size and number. Can be sent by express only.

PHOENIX RECLINATA—Beautiful Canary Island Palm, very decorative, easily grown. Price, 20 cents.

COCOS WEDDELLIANA—The most elegant and graceful of the smaller Palms. Its slender, erect stem is

Cycas Revoluta (Sago Palm) freely furnished with graceful arching leaves of a rich green color. Admirable for Fern dishes. Price, 35 cents each, by express; larger size, specimens, \$1.50 and \$2.00 each, by express.

Phoenix Canariensis

Finished specimens make almost globular plant. Nice well established plants, 35 cents, stronger plants, 50 cents, fine specimen plants, 75 cents each.

PHOENIX CANARIENSIS—Price, 20 cents each.

KENTIA FOSTERIANA—This is one of the finest pot plants of any of the Palm family. The leaves are a deep glossy green, fan-shaped, split deeply into segments. Price, nice plants, 35 cents, postpaid; larger plants, 75 cents, \$1.75 and \$2.50 each (by express only).

PHOENIX ROEBELINI (Grand Novelty)—This beautiful Palm has the grace and highness of Cocos Weddelliana, but is more robust in growth, and has tenfold the foliage of that variety. Essentially different from it, foliage from ground up gracefully recurved, spreading in habit. Popular for house decoration. Price, fine plants, 50 and 75 cents and \$1.25, by express; larger specimens, \$2.00 (by express only).

LIVISTONIA ROTUNDIFOLIA—A miniature Fan Palm. So many object to the Latania Borbonica as being of too large growth for house culture; this palm is a perfect jewel for house culture. Its leaves are exactly like the Fan Palm, but only half the size.

Livistonia Rotundifolia

KENTIA BEL-MOREANA — Is one of the best in its class; graceful habit, bright green foliage gracefully disposed. Price, small plants, 35 cents each, postpaid; larger size plants, specimens, 75c, \$1.75 and \$2.50 (by express only).

LATANIA BOR-BONICA — The cut shows a healthy plant about four years old. Nice young plants, 15 cents each; larger plants, 35 and 50 cents; large

specimen plants, \$1.00 and \$1.50 by express.

ARECA LUTESCENS—See illustration. Price, nice plants 20 cents; larger plants 40 cents, postpaid; specimen plants, 75 cents, \$1.25 and \$2.00 each (by express only).

Keep the leaves from dust and sprinkle slightly every warm day. Price, 10 cents each, 3 for 25 cents postpaid.

A new, upright-growing moss, with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain twelve to eighteen inches in height. Begonia
Rex

of
Begonias

SPECULATA—Quite a novelty in the Rex type. Leaves are in the form of a grape leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole lot spotted with silver. Price, 15 cents each, three for 30 cents.

DUCHESSE DE BRABANT—This fine variety is very distinct, having a dark greenish-brown center with a broad silver band enclosed with a dark green edging. The edge of the leaf is smooth and very pointed. Price, 20 cents each, three for 50 cents.

See Page 1 for prices.

LESODSII—It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. Price, 20 cents, three for 50 cents.

Special Offer No. XXX

Our Sweet Scented Trio of Peonies, Crimson, White and Yellow, as described above; large strong growing varieties and free bloomers; perfectly hardy in all climates; good strong plants which will give flowers next Spring, safe delivery and genuineness guaranteed; by express for \$1.25, or sent by mail, postpaid, for \$1.50.

We always use our best judgement in packing and forwarding of all orders, putting them up consistent with safe delivery and future results; and while there are instances where local planting or other conditions make it advisable to have orders sent by express so as to admit of the ball of earth remaining about the roots, still in a great many instances and to far away points, where transportation charges are high, the soil can be removed from plants of the larger sizes, and too large for mailing packages, and the roots packed in damp moss, and delivery of the plants made at a great saving in transportation charges. We will, therefore, unless otherwise instructed, use our best judgement in executing such orders, believing that at times, and where our customers are not aware of the best methods to use, their orders can be executed more satisfactorily. It should, therefore, be understood that if particular packing and forwarding instructions are to be followed, they should be plainly stated under the heading "Remarks" on the other side of this sheet.

Prices on Nursery Stock are placed very low and we cannot allow premiums to be selected on orders for small Fruits or Fruit Trees.

The trees offered are young and thrifty and will make a very rapid growth and bear quickly. When fruit trees or shrubs are received before they can be planted they may be safely kept a reasonable length of time by having the roots packed in boxes of moist soil and stored in a cool cellar or shed. It is important to order fruit early, that they may be planted out before the foliage starts.

When offered by mail, postage is paid by us; if by express or freight, charges are to be paid by the purchaser, but larger stock will be sent.

SPECIAL NOTICE—As our Nursery is a separate and distinct department from our Greenhouses, it is necessary that all nursery stock orders be shipped direct from the Nursery.
